

HENKOVAC TRAY SEALERS: LOW INVESTMENTS, EASY PROGRAMMING AND VERY FLEXIBLE...

Perfect for restaurants, hospitality branch, food stalls and caterers.

The Henkovic TPS tray sealing machines are designed for packing food products under MAP-conditions. Low investment, easy programming and flexibility explain the popularity of these machines. The mould sets can be easily changed without the need of tools because of the unique "easy mould change system". The fully automatic sensor controls vacuum and gas injection to create the perfect atmosphere inside the package.

TRAY SEALER TPS XL

"FLEXIBLE & EASY TO USE"
